VOL. 57: NO. 29

Zella W.I. Plan Country Fair

Mrs. Mike Knights was hostess to seven members of the Zelia W.I. at her home on Thursday, July 17th. Roll call was an article for the Senior Citizens' Home, with eggs and a considerable amount of fruit being turned in. Miss Helen Howard is to be invited to speak at the September meeting on "For Local Color"—aids in choosing color schemes for a home or room. Members are asked to invite friends to attend this meeting.

The annual Country Fair will eheld on Wednesday, August 20th, at the Community Centre, A revised fair list has been compiled and lists may be obtained from members.

This year members voted in favor of using 1st, 2nd and 3rd placings. Instead of the Danish system used in previous years.

of using 1st, 2nd and 3rd placings, instead of the Danish system used in previous years.

Mr. Alex Murnee, parks superintendant of Calgary, will be guest peaker at 2 p.m.

Mrs. E. Lowrie reported cancer collections totaled \$91.85.

For her agricultural topic, Mrs. J. Baustad read an article entitled "Pansies on Parade." The wide range of color, markings and forms, easy culture and versatility of pansies make them the favorites of many gardners.

Following its the revised list of standing committee members: Citizenship, Mrs. Vic Johnson; aericulture, Mrs. Dick Nelson; Social services, Mrs. A. Waldroff; home economics, Mrs. E. Lowrie: Culcation, Mrs. J. Hansen, health, Mrs. E. Waldroff; United Nations, Mrs. H. Christensen.

COURTESY

A CONSTANT DOLLAR

Because the Canadian dollar is the accepted measuring stick by which we measure all material values, and because the law requires us to accept it at its face value in payment of debt, and because the incomes of nearly all our people, and the savings of the majority of us, are all defined in stated numbers of dollars, we hold that it is the duty of the government to maintain the value of that dollar at a constant level; and that no government should take any action or adopt any policy that would have an unfavorable effect on that value.

value.

For these reasons, when another election comes around, we will judge the government's record by its success or failure to maintain the value of our dollar.

Your Community Is Judged By the Advertisers in "Your" Newspaper . . .

"No business man in any town should allow a newspaper published in his town to go without his name and business being mentioned somewhere in its columns. This does not mean you should have a whole, half or even a quarter page ad in each issue on the paper, but your name and you do not use more thin; a line space. A stranger picking up a newspaper should be able to tell what business is represented in town by looking at lits paper—
It's the best possible town advertiser. The man who does not advertise his business does an injustice to himself and the town. The man who insists on sharing the properties of the paper is not a valuable addition to any town. The life of a town depends on the live wide-awake and liberal advertising business men."

What About Price Supports??

With the passing of the Agricul-tural Stabilization Act. Canadian farmers have added one more to the list of artificial supports on which their industry is becoming more and more dependant. The list is a formidable one. It includes:

out of the country at less than cost.

2. Government subsidizing of reight on feed grain from western grain fields to eastern feed lots for feeding of livestock.

3. Guaranteed floor prices in Canada for many farm products.

4. Deficiency payments to farmers on products sold for export lower than the prices guaranteed for similar products on the domestic market.

5: Guaranteed markets for price supported products when the available market won't absorb them.

6. Cash advances on farm stored grain that the farmers have been unable to sell.

crop failures.

8. Farmer controlled marketing boards with monopolistic control of the marketing of specified products and power to prosecute any farmers who dare sell their products thru any other channel; and also with power to destroy crops in order to create artificial scarcities and thus to raise the prices.

Other demands being actively

power to destroy crops in order to create artificial scarcities and thus to raise the prices.

Other demands being actively pressed, though not yet granted, include the providing of capital to start young men on farms, on a big scale, before they have demonstrated their capacity with the providing of the provid

Decision Must Be Made — But Soen . . .

At a recent meeting of the Didsbury Curling Club it was decided to go ahead with construction of a new four-sheet artificial ice plant when collections reach the \$10,000 mark (it is reported that \$7,500 has been raised so far). The remainder must be on the line by August 15th if there is to be artificial ice here this year. It is felt that failure of this plan would result in closing the club, as artificial ice is readily available in adjacent towns. This would be a blow to the town and district insofar as business, entertainment and all-around community life is concerned. Whether you're a curler or not, it will benefit you to support this necessary and progressive plan to keep "our town" on the map. We're working now on hard-tops for the sports-minded fraternity. ecision Must Be Made — But Soon .

Next Wednesday's The Day...

The town's two service clubs, the Lions and the Kinsmen will join forces next Wednesday to provide another big day of fun and fanfare for all and sundry, when they open the gates for the annual Jamboree. Being a combined effort, there is no question that this year's deal will far surpass any previous show as many new attractions have been added. Shut off the tractor — lock the door — and enjoy yourself at the Jamboree.

TORNADO RISK SMALL IN THESE PARTS

Canada is lucky, reports the Fi-nancial Post. It lies right on the northern edge of twisterdom.

nancial Post. It lies right on the northern edge of twisterdose.

There are too few tornadoes each year of any magnitude for it to be worthwile of the weathermen even to keep count of them. But there are a few that are indelibly samped upon living memories.

They left behind them trails of dead and dying, of wrecked farms and homesteads, useless crops.

There was for example the middune day in 1946 when the roar of a thousand rail-cars thundered over the same area around Windsor and killed 17 people. There was, too, the day in August, 1944, when a twister destroyed most of the town of Kannsack, Sask.

The old-timers in Saskatchewan will tell you of a tornado in June, 1921, that killed 28 and caused 35 million damage.

Pineapple Sherbet

4½ cups milk
Dissolve augar and salt in fruit
juicos. Gradually add cream, beating constantly. Add milk. Freeze
in ice cream freezer or refrigerator tray. If the latter, freeze until
just firm, turn into chilled bowl
and beat thoroughly. Return to
tray and freeze until firm.

Fig. 1 With Flowers

Fing the beauty of sammer flowers indoors. Flower arranging, though regarded by many as a difficult reat, can be very simple if we remember a few ideas:

Flower arranging is more than simply picking as large a variety of flowers as possible and pushing them into a vase or jar. The property of the possible and pushing the property of the post divantage, so don't make the first mistake— of having too many flowers.

arker shades are near the base nd centre.

Don't be afraid to cut stems to arious lengths — some tall flow-rs, some low, and some medium leight.

Cutting And Care

1. Flowers are best cut early in the morning or late in the eve-

1. Downs a the morning or late in the evening.
2. Use a sharp knife and cut with a slanted stroke.
3. After cutting flowers place them in a pail of water and leave for several hours.
4. Shorten the stems often and keep the water moving up freely.
5. Heavy stems should be crushed slightly at the bottom so the water will move up more readily.
6. Remove all leaves submerged in water to prevent them from decaying.

Notes From D.A.

By Murray Wilde Assistant D.A.

Howard Fulcher is away on holiday and will be back on August 11. Meanwhile I am pinch-hittins for him and will be happy to give any assistance I can.

In talking to farmers of this area during the past few months I have obtained the impression that some have not heard, or have heard obtained the improvement policies. I would therefore like to take this opportunity to explain a little concerning them.

Under the Cattle improvement policies. I would therefore like to take this opportunity to explain a little concerning them.

Under the Cattle improvement policies. I would therefore like to take this opportunity to explain a little concerning them.

Under the Dattle improvement policy bon-fided farmers other than purobred breeders may apply for registered sires of the beef or dairy breeds. The applicant may obtain two bulls in a period of not less than two years. The department pays 10 per cent of the purchase produced as to quality and price by a member of the department because does not receive transportation assistance, and the bull must be approved as to quality and price by a member of the department before it is taken home. These applications should be made with your district agredutinest.

In the Sheep improvement policy bottle and the statement of the provided every two years. This assistance is not available to transactions made directly between a buyer and brunded if singoportation of a refunded if singoportation for a refund of its proportation of a refunded if singoportation for a refund of singoportation for a refund of singoportation for a refund of singoportation of a refunded if singoportation for a refunded i

May I point out again that in case of farmers buying bulls from a breeder's herd, the financial assistance can not be obtained after you have purchased and taken the buil home. Therefore may your applykation early so that inspection and purchasing can be done before the buil is required.

By using these policies you can save a lot of time and expense.

O.S.A. Alumni Plan Reunion

President Jack Paxton of the O.S.A. Alumni Association states that all signs point to a well attended summer reunion on August 8th. Classes from 1915 (the first graduating class) to 1985 are expected to be present. Special recognition will be given to classes of five years, 25 years and 40 years ago.

of the years, 29 years and so years

The program will start at 2 p.m.

During the atternoon campus tours
as well as separate program features for men and women willtimes for men and women willtimes to the separate program of the support of the support a program of talent, greetinus, messages from representatives of classes being honored and other
interesting items will be devoted to a
dance, with Allen's orchestra providing the music.

The alumni executive invites all
former students, staff and friends
of the school to keep this date open
and come.

Canadian Company Initiates Vigorous Expansion Program... **NEW MASSEY-FERGUSON PLANT BUILDS 250 TRACTORS A DAY!**

250 world-famous Ferguson System tractors every day . . . one in less than two minutes! A remarkable production figure that goes a long way towards proving this new Massoy-Ferguson plant at Detroit one of the most advanced industrial facilities in the world!

Yet this is the output of only one of sixteen Massey-Ferguson factories that operate in seven countries—in Canada, the U.S.A. England, Scotland, France, Germany and Australia. Over 23,000 employees in these factories manufacture a complete line of farm and light industrial equipment that reaches

markets in over 135 other countries.

The Detroit plant is part of a whole new series of developments ranging through product research, manufac-turing and marketing, that have recently been put into effect by this dynamic 110 year old company.

The largest manufacturer of tractors and self-propelled combines in the world today, Massey-Ferguson—a Canadian company with a truly international outlook—looks forward to continued progress in the mechanization of agriculture throughout the world.

Massey-Ferguson Limited TORONTO

Farm Loan Limit Increased

Limit Increased

Legislation was introduced into the House of Commons last week increasing the authorized capital of the Canadian Farm Loan Board lending them as million to 56 million. This will increase the board's lending them as million to 56 million. This will increase the board's lending that the board's loading to 10 million since the board's loading capital.

There were no indications the board's loaning policies, which have come under considerable fire, are to be immediately altered or made more lenient.

However, Hon, Donald M. Piemme, did tell the house that the source of the programment of the configuration of the programment of the configuration of the programment is keenly aware of the importance of agreement of the farming community.

This is encouraging since farm openizations have urged a companion of the program which they claim is adequate to-day when the capital requirements of an efficient from unit are so high.

MN ON HIS OWN LEARS MIGHT LIFE

MAN ON HIS OWN LEARNS ABOUT LIFE

When a man is on his own, an inevolutial responsible for himself, he must earn a character that is pichaps the first ineessity. Others may then learn and imitate his piches and capabilities.

In a planned society he has not been do a character, for no such thing is wanted. No nationand or universal plan can afford to take the least notice of his personal character.

Tenders Wanted

"Sealed Tenders marked "GORE" will be received by the Secretary of the Olds School Division No. 31, Didsbury, Alta., until 9 a.m., August 5th, 1958, for the Gore School site and teacherage,

Location: NE Pt. SW 1/4-19-30-4-W5th. Tenders must be accompanied by a 10 per cent deposit. The highest or any tender not necessarily accepted."

OLDS SCHOOL DIVISION,

J. B. Ludwig, Sec.-Treas.

Mrs. Bill Collinge and Wayne were
Wells wedding in Edmonton last
Saturday.

The Alberta Agriculture Department has issued an appeal to farmers to put up as much hay as possible this year.

cers to put up as much hay as poes able this year.

Deputy Agriculture Minister R.

M. Putman said stocks of surplus alay in the province are not. large although a few individual farmers have a good supply of feed on hand.

The outlook for 1958, he said, is for only a fair to poor crop of hay, except in the southwest section of the province and in irrigated areas.

Mr. Putman said drought in Saskatchewan and Manitoba has seriously reduced yields of hay, and reports indicate that Saskatchewan farmers are seeking hay in the tirrigated sections of Alberta.

The hay shortage was also blamed on the increase in numbers of livestock on the farms. Mr. Putman said their were 2.600,000 head of cattle on Aberta farms on June 1, 1957 compared with 1.563,000 in 1951. Fairners for 1958 are expected to show a further increase.

S.000.990 CANADIANS IN DANGER has hear united the supplemental of the control of

the week at the Alberta Camp at Elkton.

The hay shortage was also blamed on the increase in numbers of livestock on the farms. Mr. Putoff cattle on Alberta farms on June 1951. Pigures for 1958 are expected to show a further increase.

1. 1957 compared with 1.553,000 in 1951. Pigures for 1958 are expected to show a further increase.

1. 1950 compared with 1.553,000 in 1951. Pigures for 1958 are expected to show a further increase.

1. 1950 compared with 1.553,000 in 1951. Pigures for 1958 are expected to show a further increase.

happiness, lost jobs and broken mem."
"Some people have to eat when they feel blue, angry, sexually excited, aprehensive or ashamed." Dr. Walter W. Hamburger. University of Rochester said, "It is as if eather the said of t

arition considered to be emotionally stable enough to diet sucessfully.

Parents with overweight children
frequently find the child's weight
drops to normal when he is encourased in an activity he does
well. A teen-age boy, 30 pounds
too heavy for his age, lost 25
magnetic recording. Now, his mother worries, because she can't pry
him loose from his tape recorder
to eat his supper.

A 20 pound overweight minister's
wife went on a crash diet, to drop
from a size 18 to a fashionable 14.
"She changed from a tireless worker, with the patience of Job, to a
psevish pessimist, upsetting herself,
her husband and the people around
her." reports O'Brien. "Her doetor took her off the diet. She again is the plump, cheerful, delight
for the sensible about it. Set a moderate diet; find time for regular
exercise; don't be shamed into a
diet --, fat jan't a moral issue; set
a modest immediate goal --- say a
pound a week; allow for an occasional relapse, and, above all, try
to discover why you overcat. The
anough the should be should diet or eat.

Because children play in the water, they must be watehed constantly. A gay beach is a wonder ful plaything on land, but it can become a dangerous lure near the water. Children have drowned is as little as two inches of water Don't risk their lives— supervise.

FALLEN TIMBER

The sympathy of the district is extended to Mr. and Mrs. Bert King on the loss of their mfant son.

We were sorry to hear that Larry Adams had the misfortune to break his arm in two places.

We are glad to know that Colleen Teynor is home again after having been in the hospital for several days after having her tonsils re-moved.

Miss Anita Moncey has returned home with her folks, from Spirit River, after being employed there for some time.

Mr. and Mrs. W. Fyten and family have returned from a visit to Vancouver.

Western farmers need help from the federal treasury and help is exporting their wheat, Charles W. Gibbings, second vice-president of the Saskatchewan Wheat Pool, said recently.

"They can no longer be left to compete alone with the United States treasury and the treasuries of other countries," Mr. Gibbings told members of the Men's Canadian club.

The Gordon Commission has add these tariffs last year amounted to more than \$1.000,000,000 and casts the three prairie provinces 788,000,000.

NOTICE

I wish to inform those interested that I have purchased the machinery and welding equipment, formerly the property of the late William Anderson and have installed it in the bulding between Clarence's Shoe Shop and Kaufman and Jenkins Plumbing Shop.

I have a good line of equipment and tools, and a life-long experience in general repair and maintenance work and welding.

It will be my ambition to give the very best service possible and keep my charges reasonable. Your custom will be appreciated.

END CANVAS TROUBLES-USE THE JOHN DEERE 30 COMBINE

...with 7-FOOT AUGER-PLATFORM--EVEN-FLO FEED

Listen to the steady hum of the threshing cylinder of the John Deere 30 Seven-Foot Combine at work, and you'll know that here is a combine that does a real job of threshing. As every good thresherman knows, even feeding is the big secret to best threshing. And, in the 30 Combine, it's the combination of the auger-type platform and the EVEN-FLO FEED that keeps the cylinder humming at proper threshing speed at all times—completely does away with canvas trouble.

"Wherever Crops Grow, There's a Growing Demand for John Decre Farm Equipment"

COWAN & MOORE SALES & SERVICE

Full-width, straight-through handling of straw and grain is another mighty important advantage you get in the 30 Combine. Because of the even feeding to the full-width cylinder, the material is spread out in a thin layer over every inch of the large separating and cleaning area. This insures more and cleaner grain or seed from every acre harvested.

Come in soon for full details on the 30 Combine. Ask about the John Deere Credit Plan.
